

SUPERIOR PAPER PRAISES COUNTY

Telegram Contains Fine Write- Up Of Rhinelander And Vicinity

In Saturday's issue of the Superior American, one of the best daily newspapers in the northwest, much space is devoted to a write-up of this city and county. The article is illustrated with farm scenes and is also a good likeness of the city and county. The New North republication of the write-up is a portion of the write-up.

"One of the most promising counties in the northwestern section of the state is Oneida. During all the years that I have come and gone among the people all over this section I have yet to find a more active and enterprising fellow than the average citizen of Oneida county. He is a hustler from away back. The timber wealth of the county is by no means yet exhausted. In all parts of the county may still be found representatives of that fast disappearing institution, the large saw mill, but the people of Oneida long ago realized that the single crop of timber must go and so quickly and an enterprising campaign is now on to develop the agricultural possibilities of Oneida county.

"The soil of Oneida county is like the rest in these parts, sandy and clayey loam, and all of it has proved its value for farming when properly tilled. In no other county are they doing more to boost farm development and attract settlers. They have provided an expert agriculturist whose sole work is to show the farmers how to obtain the best results and to experiment with the various soil qualities. This gentleman is Prof. E. L. Luther, connected with the State Agricultural college, and paid jointly by that institution and Oneida county. It stands to reason that this is a great step in the right direction, and has proved its worth so decisively already that the county of Oneida would not dispense with his services even if they had to stand the expense alone. Mr. Luther has pursued his work in the county for a year now.

"I would mention another big set of Oneida county, Editor F. A. Lowell and his splendid paper, The New North. He is always awake to the interest of his home city and county and every month or so issues a special farm number with special pictures and write-ups. In the present attempt of the Forestry bureau to rob Northeastern Wisconsin of a million and a half of acres in order to perpetuate a fad, The New North is foremost in the fight against it, and its ultimate defeat, which now seems assured, will largely be due to his energetic work. To him is also largely due the engagement of Prof. Luther as agricultural expert of Oneida county.

"The county seat of Oneida is Rhinelander, a city of 6000 inhabitants and one of the most progressive cities in the state. The new court house, recently finished at a cost of over \$100,000 is absolutely the finest in the state, all things considered, and a new \$150,000 high school is now in the process of erection. A \$100,000 government building has just been authorized by the last session of congress. Another town is Minocqua, one of the most famous summer resorts in the country."

ANOTHER POTATO FARM?

There is a rumor that parties from Plover, Wis., are considering the purchase of a large tract of land in this county which they will convert into a potato farm. It is reported that the parties are affiliated with a big Chicago produce concern which is back of the deal. The reliability of the story cannot be ascertained at this time.

TO GIVE MASQUERADE

The Elks have issued invitations for a masquerade party to be given at the club rooms on Davenport St. Friday evening. Everyone is requested to mask and a pleasant occasion has been planned. When it comes to entertaining the Elks are right there in the king row.

DRAWING THE CROWDS

Majestic Theater Vaudeville Is First Class

God vaudeville continues to be favored at the Majestic theater. The latter half of last week a team of comedy actors assembled the audience with their marvelous feats. The young lady in this act is one of the famous Nelson family who have traveled with every big circus in the world.

The class of motion pictures shown at the Majestic are better than those of the average theater. The subscription I have yet to find a more reliable and enterprising fellow than the average citizen of Oneida county. He is a hustler from away back. The timber wealth of the county is by no means yet exhausted. In all parts of the county may still be found representatives of that fast disappearing institution, the large saw mill, but the people of Oneida long ago realized that the single crop of timber must go and so quickly and an enterprising campaign is now on to develop the agricultural possibilities of Oneida county.

SOO COURTEOUS TO PASSENGERS

Trainmen Must Treat Patrons With Politeness And Consideration

One can expect most anything in the way of courteous treatment from conductors and trainmen along the Soo line, provided that the orders issued by the central superintendent are carried out. The new policy of the Soo is to treat its patrons with the utmost courtesy and consideration.

Engineers and firemen also have been cautioned what not to do. They are requested not to allow their engines to "pop" while at a station, as it often frightens women and horses. The engineers also are told not to make rough stops and starts.

"Don't ring the engine bell, and don't blow the whistle while standing in a station, or along side of another train," say the orders, there always being several nervous passengers which such action might annoy or awaken.

Engineers are told not to display any alleged ability of whistling or singing around the train. "Passengers might regard either as neither."

Conductors must say "thank you" when they are handed tickets, whether the party be a charming young woman or a grizzled grouch. Trainmen are told to "make the passengers at home."

MAY SECOND ARBOR DAY

Governor McGovern Issues Proclamation Setting Date

Arbor and Bird Day is May second according to a proclamation just issued by Governor Francis E. McGovern. The proclamation reads as follows:

"In harmony with approved usage I, Francis E. McGovern, governor of the state of Wisconsin, hereby name Friday, the second day of May, 1913, as Arbor and Bird day, to be observed with appropriate exercises in all the schools of Wisconsin.

"Arbor day was established to instruct children in the economic value of flowers and birds, to instill in their hearts a love of nature, and to encourage them in making home and school surroundings more attractive in continuing the custom.

"While thus engaged in beautifying the landscape, protection from fire should not be overlooked. Every nook and corner should be cleared of all refuse and inflammable material so as to prevent the spread of fire. With this object in view I designate this day also as Fire Prevention Day."

MAJESTIC THEATER, APRIL 13th

There will be a benefit for St. Augustine's Guild, Friday, April 13th at the Majestic. Watch for notice of special pictures.

FANS WANT BASE BALL TEAM HERE

This Season Should Not Be Allowed To Pass Without National Game

Now that spring is actually here the all fan news from his high school and college. "What about a baseball team this year?" This is a question that is being asked by one of the leading topics of the city and all good disciples of the sport are wondering if the great national game is going to be played in Rhinelander. Some weeks ago the scheme of building a ball park within easy distance of the business section of the city was talked over, but what need is such a park without a ball team? And more—no ball team, would deem it wise to build without a team. A strong base ball organization is a big advertisement for any town.

Several of the enthusiastic fans have suggested that a meeting be called soon for the purpose of discussing the question and adopting steps toward the forming of a nine. It is believed that there is enough material in the city for a fast amateur team. It might be necessary to engage two or three outside players, but this expense would not be heavy. Nevertheless the season of 1913 should not be allowed to pass without a base ball team in Rhinelander and it is hoped that active work be commenced shortly toward realizing the same.

E. A. EDMONDS LOSES SUIT

Canadian Company Wins Action Begun by Appleton Capitalist

Holding that the Spanish River Pulp and Paper company of Ontario had not been shown to be unwilling or unable to fully perform the conditions of a contract made, Federal Judge Geiger dismissed the bill of E. A. Edmonds who sought to recover \$100,000 paid down and call off the deal.

Under date of April 29, 1913, Edmonds agreed to purchase the holdings of the company for \$250,000, and was to have paid up fully by February 15, 1913. He attempted to withdraw from the bargain, alleging that water power ownership and flowage rights, among other things, could not be delivered without title defect.

The plaintiff urged that the \$100,000 paid down be treated as security and that a court of equity limit the defendant to actual damages. The court holds that it was no security, but part payment.—Evening Wisconsin.

MRS. VIOLA EDWARDS

Former Rhinelander Resident Passes Away In Oshkosh

The following account of the death of a former Rhinelander resident is taken from the Waupaca Record-Leader. For several years Mrs. Edwards conducted a millinery store in this city:

"The death of Mrs. Viola Barton Edwards occurred at 6:45 p. m. Wednesday at Oshkosh where she was taken in a critical condition and underwent an operation for appendicitis. Her case was hopeless when the trip was made but it was believed some relief would result. She lived several days after the operation, however, her son Barton and daughter Esther being with her when the death angel took her home. Mrs. Edwards, aged fifty-two years, one month, twelve days, was born in the town of Farmington, where she spent most of her life. She leaves to mourn her loss, two children, Barton and Esther Edwards, her father and mother, Mr. and Mrs. Sylvester Barton of Farmington, a sister, Alice Custard, of Osakis, Minn., a brother, Marcellus Barton of Farmington, and a sister, Blanche Peterson, of Alberta, Canada. The funeral was held Saturday at 2 p. m. at the home of her father, Rev. L. E. Shanks officiating. Interment being made at the Barton School cemetery.

THE SAME IN RHINELANDER

Central Girls Annoyed By Seekers Of Time

Calling up central girls in order to learn the time of day is a source of constant trouble to the girls of the city. As A. E. McKinnon, district office chief of the Wisconsin Telephone company in Milwaukee, said: "The same condition which prevails in Milwaukee exists in Rhinelander as well as every other place in the country where central girls are in operation. In Rhinelander the girls are looked upon by the last fifty calls on a day as a nuisance. This is very annoying to the girls and puts on their nerves. They wish to be doing at all times but they must wait a half hour before they can get a call. It would be well for phone users to provide themselves with reliable time pieces and not depend so much on central for the time.

TALKS ON HEALTH OF THE CHILDREN

Theodore Werle At Training School Monday And Tuesday

A two day health institute was held by the Wisconsin Anti-Tuberculosis Association at the Training School Monday and Tuesday of the week. The work was done by Mr. Theodore Werle of Milwaukee.

Tuesday forenoon was for the best of the series. Miss Jones, teacher of the 5th grade, conducted a class in arithmetic. This was followed by Mr. Werle, who taught the children a number of games. After this came another class exercise in arithmetic. The excellent result of the play period was plainly discernible.

Mr. Werle talked largely about the value of play in our schools as basis of good health and education. Play, he said, is natural to children and should be used in our schools at recess and between the recesses. The teacher should make it a point to play with the children and as one of them. Instead of breeding familiarity and disrespect it will develop the qualities of respect.

The teacher's responsibility does not end with teaching the three R's but with getting the children in a good condition to use the knowledge thus gained. Our schools are not for the purpose of teaching children to earn a living, but for the purpose of teaching them to live. Therefore hygiene should be taught rather than physiology.

Before the teacher can get the children into good condition to learn she must be in good condition herself and she must have enthusiasm. This is developed through interest. And a child's interest is developed through his instincts, the greatest of which is that of play.

It is proven from 40 to 60 percent of all the children in our schools are defective and more or less disabled through preventable and curable disease. By properly directed play this percentage can be cut down almost to the vanishing point.

The first plan, then, of the teacher should be for the health of the pupils. Mr. Werle urged the students of this school to do their share in the uplifting of the health condition of the children of this county where they go out to teach.

A number of the mothers of this city were present at one or more of the exercises and a large class of the High school attended the lecture of the first day.

DR. H. G. FRANZEN ILL

Dr. H. G. Franzen, son-in-law of Mr. and Mrs. O. A. Hilgerman, is very low with pleurisy and pneumonia at his home in Minneapolis. Mrs. D. H. Walker and George Hilgerman were called to Minneapolis by the doctor's illness Tuesday. Dr. Franzen has been a frequent visitor in Rhinelander and his friends here hope for an early recovery.

WILL CELEBRATE FOURTH OF JULY

Military Band Arranging For Big Program On Nation's Birthday

The members of the Military Band have decided to take charge of the Fourth of July celebration in Rhinelander this year. They believe in an old-fashioned start toward making the Fourth of July a day of fun and games for the people of the city and of the county. They have already made preparations for a Fourth of July celebration.

Louis Dornier of the Military Band said that it is the intention to make the celebration in Rhinelander this year a glorious one and the most successful ever held here. The event will be extensively advertised in all the surrounding towns with the expectation of attracting a large number of visitors here. A splendid program of races, contests and sports of all kinds will be arranged and the promoters will endeavor to secure some special feature for that day.

The land across the business people of this city to find their share in a financial way. Every cent, no matter how small will help toward insuring the success of the celebration. A big celebration to this city Monday, Rhinelander will draw strangers here and when the prospects of securing a new modern hotel are very bright, a large amount of money is expended.

GET SIX MONTHS IN COUNTY JAIL

Flansburg And Drake Plead Guilty To Petty Larceny Monday

In Municipal court Monday E. W. Flansburg and J. E. Drake, who were arrested for the theft of meat from a Soo line freight car, pleaded guilty to the charge of petty larceny and were sentenced to six months each in the county jail by Judge D. H. Walker. The court also ordered that the men reimburse the Soo railway company for the amount of meat confiscated and pay all the costs of the case which amounted in the neighborhood of eight hundred dollars. This left the county entirely free of any expense in the matter.

Mr. Flansburg was arrested in Prince Albert, Sask., and brought back here by Sheriff Asmundsen and Detective Stephens of the Soo line. Drake, whose home is in Rhinelander and is a brakeman on the Soo line was arrested Friday. The original charge against the men was that of breaking into and entering a freight car but this was changed to petty larceny.

ROLLER SKATES AGAIN

With the advent of spring roller skating on the cement walks of the city is one of the popular amusements of the children. This is a good healthful pastime and one which the little folks should be permitted to enjoy. They should also be allowed to skate anywhere in the city. The rollers do the walks no harm and the older heads must not forget that they were once young themselves.

PROSPECTS GOOD FOR NEW HOTEL

Janesville People Give Business Men Here Great Encouragement

As the result of the visit of Mrs. McNell and Mr. Squires of the Janesville Hotel company of Janesville, Monday afternoon and evening, it is believed that the prospects of securing a new modern hotel are very bright. Prospects of securing a new hotel, Mrs. McNell and Mr. Squires met the business men of this city. They submitted much plan of the prospective structure, which will be a 17 room hotel, four stories high.

Other representatives of the company are expected here within a few days when it is expected that a definite action in the matter will be taken.

In private conversations with business people of the city, Mrs. McNell and Mr. Squires expressed their belief in the proposition and strongly indicated that they would erect a new hotel here. They liked the proposed location on Brown street and could see no objection which stood in the way of the proposition being brought to a successful termination.

APPOINTS REEVS CITY ATTORNEY

Mayor Selects Him To Fill The Place Of C. W. Fricke, Resigned

At the adjourned meeting of the city council Friday night Mayor Braeger appointed H. L. Reeves as city attorney to fill the unexpired term of C. W. Fricke resigned. The appointment was confirmed by the council. Mr. Fricke, who was elected to the office at the recent election, has moved to Wausau.

The proposition made to the city by R. G. Lowell was referred to the mayor and city attorney who are to report on the same at the next meeting of the council.

It was voted that the ballot clerks of the recent election be allowed \$3.00 and the clerks and inspectors \$1.50.

The yearly report of Chief Cole of the fire department was read and accepted. The regular monthly batch of bills was allowed.

Items Of More Or Less Importance Boiled Down From Neighboring Exchanges

Oconto—

Hearing some one trying to enter her home by way of a window in the middle of the night, Mrs. Nellie Grant, who was in the house alone summoned the fire department by telephone. When the department arrived they saw a man working at a window of the home but supposed he was trying to get into the home to extinguish the blaze, and before Mrs. Grant could explain things the intruder disappeared.

Antigo—

Otto Kozak, who, when charged in Chicago with stealing \$70, came to this city to see his fiancée, Miss Ann. Burish, killed himself here on Sunday when he learned that the police were on his trail.

Marshfield—

Claire Walker, aged 11 years is in a serious condition in a local hospital as the result of having been shot in the leg by Paul Emerman his companion. The two boys were hunting when Paul shot a rabbit. He aimed and fired, missing the animal but hitting Claire.

Ladysmith—

Through the efforts of F. M. Benedict & Son it is estimated that at least 100 new families will locate in the vicinity of Ladysmith this year. This will mean 300 more people within a few miles of the city and will result in a more rapid development of the surrounding country. 100 new families with a trading radius of Ladysmith will mean more for the city than a factory employing 100 men.

Ashland—

A jury has found Wm. G. French insane and he has been sent to an asylum. French has the most remarkable prison record in Wisconsin. He was sentenced to state's prison three times for murder, transferred to the insane asylum, but de-

manded a jury and was discharged. He was picked up by Maud Ballington Booth but returned to Ashland and attempted to kill the man who married his wife.

Grand Rapids—

Mrs. O. Boyle, an aged woman living with her two sons six miles north of Pittsville, was badly burned while heating a can of tar on the cook stove. The sons were engaged in tarring the roof and had a can of tar on the stove to heat without first driving a vent hole in the top. There is little hope for her recovery.

Ashland—

C. Dennis will be Ashland's first mayor under the commission form of government, and W. D. Noble and Jas. Phillips will be his associate commissioners. A normal vote was cast. The mayor receives \$1200 a year and the commissioners \$1000.

Wittenberg—

L. M. Compton, special disbursing agent, and Mr. Monks his secretary, are here from Tomah making payment of annuity to the Winnebago Indians who are residents hereabouts.

Cause for Alarm

Loss of appetite or distress after eating—a symptom that should not be disregarded.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, healthiest persons are moderate eaters. Nothing will cause more trouble than a disordered stomach, and many people contract serious maladies through disregard or abuse of the stomach.

We urge all who suffer from indigestion, or dyspepsia, to try REXALL Dyspepsia Tablets, with the understanding that we will refund the money paid us without question or formality, if after two you are not perfectly satisfied with results.

We recommend REXALL Dyspepsia Tablets to customers every day, and have put to test of one who has not been benefited. We believe them to be without equal. They give prompt relief, aiding to neutralize acidity, stimulate flow of gastric juice, strengthen the digestive organs, and thus promote perfect nutrition and correct unhealthy symptoms. Washburn—

Thos. Duklow, a former Washburn man, was killed Friday in an elevator in a Duluth wholesale house where he was employed. He was a prominent Mason.

Phillips—

The large new saw mill of the Kneeland-McLurg company has commenced operations. The plant is the finest in the northwest and takes the place of the John R. Davis mill which was ruined by fire in October 1909.

Waupaca—

An extension of one year has been granted to Waupaca county for the building of a new jail. The present jail has been condemned and a new one had been ordered built this year but by the new order the jail will not have to be completed until the fall of 1914.

Ironwood—

M. A. Fitzsimmons, former cashier of defunct Bank of Ironwood, has been found guilty of embezzling \$123,000 from the institution after a trial of three weeks. The jury in the case was out only one hour and a half. The defendants' attorneys have filed notice of an appeal for a new trial which will be heard before Judge Cooper on May 15. M. A. Fitzsimmons has been released on \$25,000 bail furnished by Dr. Maas of Houghton, a brother-in-law, who qualified for \$20,000 and George A. Curry of Ironwood who qualified for \$5000.

Florence—

In a letter to the Mining News Julius Barnes writes from Monrovia, Cal., that his front yard is full of roses and his back yard full of fine oranges but he is going to return to Florence this week to get some trout. Mr. Barnes is an ardent trout fisherman and he does not think that California has any charms for him without the speckled beauties.

FLASHES FROM THE HEADLIGHT

Bits of News Pertaining To The Soo and Northwestern Railroads

The Soo line rendered all the aid possible toward helping the railroads in the flood district repair the damage to their road beds caused by the high waters. Several pile driving outfits owned by the Soo were put in operation on the various roads.

A verdict of accidental death was returned at the inquest Friday at Bagley to determine the cause of the deaths of Henry Nitz of Marquette and August Schaefer of Brooklyn, N. Y., killed Sunday night March 30, in the derailment of Northwestern passenger train No. 102 at Bagley. No blame for the derailment was assigned.

The Stevens Point Journal says that the Soo line has received fifty new Rogers ballasting cars, the purchase price of the lot being \$50,000. These cars will be utilized in ballasting operations during the coming summer. There are forty miles of track which will receive ballasting next summer.

Delbert Walters of North St. Paul, who was arrested by Soo line detectives several weeks ago charged with attempting to wreck Soo line passenger train No. 4, and was later released from jail, is said to have started suit for \$5000 against the company for false imprisonment. The case will probably not come up for trial as the Soo officials have stirred up some unpleasant facts against Walters which may cause him to drop the action. Walters had a Northern Pacific switch key which fit the switch locks of the Soo, but the evidence against him was not quite strong enough and he was allowed to go.

That the hottest railroad war in many years between two of the large

est systems in the world with the battle ground in northern Montana and Southern Alberta is the rumor circulated from St. Paul. The two systems are the Hill lines and the Canadian Pacific with its subsidiary, the Soo line. The fact that the Great Northern has thrown a party of surveyors in the field on the eastern side of Glacier park indicates that J. J. Hill means to carry out his threat of invading Alberta territory. The Canadian Pacific, taking cognizance of Hill's move is planning to build the Soo line through Montana.

The Soo line yards in this city present a busy scene these days. The freight traffic through here is exceptionally brisk and the rails are kept hot constantly by the long freight trains which have made the Soo line famous.

AN ORDINANCE

To amend Section 1 of Chapter 3 of the Ordinances of the city of Rhinelander.

The Common Council of the city of Rhinelander do ordain as follows: Section 1 of Chapter 3 of the Ordinances of the City of Rhinelander is hereby amended to read as follows:

Section 1. The standing committees of the council, to be appointed by the Mayor, subject to confirmation by the common council and to consist of three members each, shall be as follows:
Committee on Ordinances.
Committee on License.
Committee on Fire Department.

THE EASTER BALL

By Enterprise Correspondent Of course a town is not a town, without an Easter ball. So Monday night a crowd assembled and had one in the hall.

A jolly bunch came down from Parrish to pass the time away. They really couldn't get home that night.

And 'till morning had to stay. Poor Clifford Keeler had to play. He and oh! his mouth did get so sore. He played and played, and played, and played.

And still they heaped for more. They made John Gatten call. Until his lungs did hurt. He tho't he'd never call again. He was too much like work.

They two-stepped first, then waltzed, awhile. Then to a big long rest. The next a dandy long quadrille. The one we like the best.

I'm sure that none were ever so happy. As the dancers were that night. Never was a dance, more merrier, Never were faces with smiles so bright.

We really wish those Parrish people Would come again sometime. With greatest pleasure they were welcome.

And they had a lovely time. On Tuesday morning, the Parrish people. On the train they did go home. We hope that to the next big dance That they'll be sure to come.

And now my poem I will close. I've written quite enough. If you do not all just quite agree, Please do not use ME rough.

HAZELHURST Messrs. Johnson, Lathrop, Arnold, Shultz, Harper, Layons, Geo. and Chas. Dawes were over from Tomahawk Lake, Tuesday last to cast their vote.

"FAGGED-OUT" WOMEN

Will Find a Helpful Suggestion In This Letter.

Overworked, run-down, "fagged out" women who feel as though they could hardly drag about, should profit by Miss Richter's experience. She says: "Last winter I was completely run down and felt fagged out all the time, was nervous and had indigestion."

"One of my friends advised me to take Vinol, and it has done me great good. The tired, worn-out feeling is all gone, and I am strong, vigorous and well. The stomach trouble soon disappeared and now I eat heartily and have perfect digestion. I wish every tired, weak, nervous woman could have Vinol, for I never spent any money in my life that did me so much good as that I spent for Vinol."

Marie Richter, Detroit, Mich.

Thousands of women and men who were formerly weak and sickly owe their present ruzzed health to the wonderful strength-creating effects of Vinol. We guarantee Vinol to build you up and make you strong. If it does not, we give back your money.

P. S. For feeling burning skin try our Sars Parilla. We guarantee it.

SELLING TOBACCO TO YOUTHS

The Teasdale bill, providing a penalty for the sale of tobacco in any form to persons under sixteen years of age, unless the parent or guardian gives permission, has passed both houses.

The Anderson anti-fraud bill was defeated yesterday in the assembly by a close vote of 52 to 47, after a two hours debate.

The debate over the bill was the most strenuous of the session, and in a closing address Assemblyman Douglass Anderson strongly arraigned the university fraternities on the ground of the bitter feelings they engendered between fraternity and non-fraternity members in the university student body.

President Wilson read his message to Congress Tuesday. This is the first time a president has read his message to Congress in 108 years. His message dealt with the tariff. He asks for a reduction on the necessities of life. Already many papers are crying a strident cry of certain industries because of these reductions. We are glad to see something done to all the common man. It is high time the consumer were considered and we hope President Wilson will be able to put his bill through and give it a fair trial.

Representatives of Vilas, Forest, Florence and Oneida counties are at Madison today asking the legislative committee to investigate the lands of these counties as to their agricultural values before turning them into a forest reserve and Forester Griffith is doing everything in his power to fight the investigation. Why is Griffith afraid of letting the light of dry shine in on his scheme?

If he were honest and felt his forestry policy would stand investigation, he should ask it. We know why he fears investigation.

B. N. Moran, re-elected last Tuesday chairman of the town of Polk without opposition, will be a candidate for reelection as chairman of the county board.

Mr. Moran's splendid record as a county chairman has been well established to the satisfaction of the people. It is always the custom to give a man a second term when his first term has been successful and Mr. Moran's record was well calculated to insure his reelection.

The supreme court has reversed the decision of the circuit court in the will of the late W. F. Ball of this city. The circuit court decided against the widow and she appealed to the supreme court.

Mrs. Geo. Caldwell of Minneapolis is the guest of her cousin, Mrs. F. T. Coon. The lady's husband is a prominent attorney of the twin cities.

Saw Humor in Situation

Joseph Jefferson, wrote Mary Shaw in the Century, was once introduced at a club by a blundering chairman as "Mr. Washington Irving—I mean—Mr. Rip Van Winkle—I mean—Mr. Joseph Jefferson." Mr. Jefferson, being somewhat deaf, did not hear this, and misunderstood the prolonged laughter that greeted him as he rose. On his real cause being later explained to him, he was relieved, and exclaimed, "Good heavens! I don't wonder they roared at that tripping down the scale."

Nails Protect Piling

Some of the piles in use in Amsterdam are 300 to 400 years old. That part which is not in the ground is often bored by a pile worm near the surface, but is preserved by driving in nails with very large heads, so as to give the pile an iron coating. This coating is then transformed by the water into a layer of rust, which protects the wood from the pile worm. This process must be repeated every fifteen years.

One Bright Spot

An English clergyman was visiting his parishioners, when one of them, an old woman, informed him that since they met "she'd gone through a sight of trouble. Her sister was dead, and there was a worse job than that—the rig died all of a sudden; but it pleased the Lord to take him, and they must bow, they must bow." Then the poor old lady brightened up, and said: "But there's one thing, Mester Allen, as I can say, and ought to say, the Lord's been pretty well on my side this winter for greens."

Thrill of Glasgow

Glasgow sets a splendid example of thrift and enterprise to the other cities and towns of Great Britain. It does not even seem to collect and sell its waste paper and to traffic in scrap iron, thus adding many hundreds of pounds to its exchequer. Its cleansing department does business with half the cost of other cities. It owns nearly one thousand railroad cars, and does a wide range of business from log reclaiming to market gardening and butchers' work.

Reminiscence Not Pleasing

Once while canvassing his state during a political campaign, John Quincy Adams was approached by a well-to-do farmer, who introduced himself and said: "Mr. Adams, I'm glad to meet you; my wife remembers you well; she was in your family when you were a boy, and often combed your hair." "Well," said Mr. Adams, sharply, "I suppose she combs yours now."

Nature's Method of Protection

There have been brought to light an astonishing number of forms of fish, and especially of prawns of a brilliantly red color, living in the ocean at a depth of 3,000 feet. But, astonishing as it may seem, these brilliantly colored fish and prawns, instead of being conspicuous in the water at that depth, are nearly invisible, when almost any other color could be easily seen.

WILSON READS FIRST MESSAGE

Advocates Drastic Reduction In The Tariff To Congress

And during his message President Wilson Tuesday read the speech of his message, and, after shaking hands with Speaker Clark, read personally the first message thus given since the days of John Adams.

To the Senate and House of Representatives:

I have called the Congress to meet in an extraordinary session because a duty was laid upon the party now in power at the recent elections which it ought to perform promptly in order that the burden carried by the people under existing law may be lightened as soon as possible and in order, also, that the business interests of the country may not be kept too long in suspense as to what the fiscal changes are to be to which they will be required to adjust themselves. It is clear to the whole country that the tariff duties must be altered. They must be changed to meet the radical alteration in the conditions of our economic life which the country has witnessed within the last generation. While the whole face and method of our industrial and commercial life were being changed beyond recognition the tariff schedules have remained what they were before the change began, or have moved in the direction they were given when no large circumstances of our industrial development was what it is today. Our task is to spare them with the actual facts. The sooner that is done the sooner we shall escape from suffering from the facts and the sooner our men of business will be free to thrive by the law of nature (the nature of free business), instead of by the law of legislation and artificial arrangement. Passed Beyond Plan of Protecting Industries

We have seen tariff legislation wander very far afield in our day—very far indeed from the field in which our prosperity might have had a normal growth and stimulation. No one who looks the facts squarely in the face or knows anything that lies beneath the surface of action can fail to perceive the principle upon which recent tariff legislation has been based. We long ago passed beyond the modest notion of "protecting" the industries of the country and moved boldly forward to the idea that they were entitled to the direct patronage of the government. For a long time—a time so long that the men now active in public policy hardly remember the conditions that preceded it—we have sought in our tariff schedules to give each group of manufacturers or producers what they themselves thought that they needed in order to maintain a practically exclusive market as against the rest of the world. Consciously or unconsciously, we have built up a set of privileges and exemptions from competition behind which it was easy by any, even the crudest, forms of combination to organize monopoly; until at last nothing is normal, nothing is allowed to stand the tests of efficiency and economy, in our world of business, but everything thrives by concerted arrangement. Only new principles of action will save us from a final hard crystallization of monopoly and a complete loss of the influence that quicken enterprise and keep independent energy alive. Must Abolish Every Sign of Privilege

It is plain what those principles must be. We must abolish everything that bears even the semblance of privilege or of any kind of artificial advantage, and put our business men and producers under the stimulation of a constant necessity to be efficient, economical and enterprising, masters of competitive struggle, better workers and men of more initiative than any in the world. Aside from the duties laid upon articles which we do not, and probably cannot, produce, therefore, and the duties laid upon luxuries and merely for the sake of the revenues they yield, the object of the tariff duties henceforth laid must be, effective competition, the whetting of American wits by contest with the wits of the rest of the world.

It would be unwise to move toward this end headlong, with reckless haste, or with strokes that cut at the very roots of what has grown up amongst us by long process and at our own invitation. It does not alter a thing to upset it and break it and deprive it of a chance to change. It destroys it. We must make changes in our fiscal laws, in

Madison, Wis.—The membership in the University Y. M. C. A. has grown remarkably since the dedication of the present association home in 1908. At the time of the building canvass there were less than two hundred members of the association. At the present time there are over eleven hundred. It used to be that the membership was drawn from one particular group of young men, but now the leading men in all phases of college life, football, track, oratory, debate,

student conference, Wisconsin Union, fraternity and non-fraternity alike, are represented in the membership of the association and in many cases entire groups are thus co-operating.

The increased membership gives some idea of its growth in power and service. However, practically all the work is planned with the entire student body in mind, the new student

work, the employment bureau, Bible study, religious meetings, all are open to members and non-members alike. Since the erection of the present building, the committee rooms on the second floor have been placed at the free disposal of all student organizations. That they have been used freely is evidenced by the fact that in three months in the fall, fifty-three different organizations used these rooms for one or more meetings. Besides, through an arrangement with the board of directors of the Wisconsin Union, the main floor of the building, except on stated occasions and exclusive of the association offices, is placed at the disposal of the Wisconsin Union.

The building has met with almost unprecedented use. The stone step at the entrance has been worn down in the center fully three inches by the constant tread of students going to and from the building.

Campaign for Funds Necessary. The keeping of this building lighted, heated and cared for, and the replacing of furniture, rugs, curtains, etc., under such tremendous usage, requires no small expenditure of money.

When the building was erected, however, it was dedicated with a deficit of approximately \$25,000. This has been reduced to \$23,000, but the interest on this mortgage has eaten up the money which should have been expended on the building each year in order to make the necessary repairs, decorations, etc., to keep it in first-class condition. As a result the board of directors of the association have organized a campaign to raise \$35,000, which amount will pay off the mortgage, assist in meeting this year's budget and make the necessary repairs and improvements which will put the association out of debt and in first-class condition to render the service which it ought to render. The campaign is set for March 14-29. During this time campaigns will be held in Madison, Milwaukee and Chicago, and in about twenty other Wisconsin towns. Other large cities outside of the state, like New York, Los Angeles, Seattle, etc., will also be putting forth an effort to secure funds.

Besides, there are hundreds of towns in Wisconsin from which students are every year going to the University and where it has been impossible to set up campaigns, from which many contributions should be received.

Mr. E. F. Riley of Madison is treasurer of the building fund, and anyone wishing to contribute toward this good cause may mail checks either to Emerson E. La, chairman, or E. F. Riley, treasurer, 305 Washington Bldg., Madison, Wisconsin.

Woman's Suffrage Department

Edited by Mrs. C. P. Crosby, Pres. E. S. L. and Mrs. E. K. Reik, Assistant in Press Work.

States where Women Have Full Suffrage

Wyoming since 1893, Colorado, 1893; Idaho 1896, Utah 1896, Washington 1910, California 1911, Arizona 1912, Kansas 1912, Oregon 1912. In 15 states women are allowed to vote in school matters.

In almost every state the friends of suffrage are carrying on an active campaign. It is quite probable woman's enfranchisement will come as a national issue before all the states are ready for it as state after state wins out, the opinion of these new voters cannot be disregarded.

In the following states there is now a suffrage amendment before the voters:

| votes in house | votes in Senate | goes to voters |
|--------------------|-----------------|----------------|
| Michigan 73-19 | 25-4 | 1913 |
| Montana 75-2 | 15-2 | 1914 |
| Nevada 49-3 | 19-3 | 1911 |
| North Dakota 1914 | | |
| South Dakota 70-20 | 41-2 | 1914 |

States where amendment has passed one legislature and must pass another.

| House | Senate |
|-----------------|--------|
| Wisconsin 17-15 | |
| Iowa 81-26 | 31-15 |
| New Jersey 46-5 | 14-5 |
| New York 125-5 | 40-2 |

Favorable but not final action. House 89-53, Senate 23-6. Missouri—Both houses have passed bill to engrossment.

Pennsylvania—131-70. How the vote changed in two states—In Oregon equal suffrage was defeated by 22000 in 1910 and carried by 4000 in 1912. In Kansas, the first time woman suffrage was submitted it got only 9,100 votes; the second time it got 95,302; the third time it got 175,276 and carried.

These figures and results encourage Wisconsin suffrage workers to bring the subject before the voters as many times as necessary, until carried.

We shall soon hear from the bill in our state assembly. If favorably passed let us hope that when submitted to the people we shall have Oregon's experience and have it over.

FARMERS MEET AT TOMAHAWK LAKE

Representative Luther Holds Big Gathering There Sunday

About thirty-five or forty people of T. 33-7 met with the agricultural representative on Sunday at Tomahawk Lake. It is this region that the state forestry fight waxes hot. Charles Sanders brought over a stove, some pipe, sawhorses, boards and wood. George Dawes brought along some wood. A vacant store room was soon fitted up and things got busy. Several cows were tested out. Charles Sanders brought along some of his Wisconsin No. 8 seed corn. George Dawes brought in some Burbank potatoes. Talks were made on the use of the pure bred sire in developing better dairy cows, and silos and other farm topics were discussed. Best of all a fine dinner was spread out and the tables groaned with the burden. The ladies of T. 33-7 are all right too.

Still they come. Charles Sanders of Tomahawk Lake has put in the milk scales and the milk sheet and will weigh the milk from his cows every milking. Brown Brothers have installed new milk scales on their Pelican farm. They also put in new "Santaire" milk pails and Benjamin Downs, a Short Course young man from the College of Agriculture enters upon the duties of herdsman. The district employing Miss Martha Murray as teacher over in Cassian is the first school district in Oneida county to report the putting in of a Babcock tester. This is one of the wisest expenditures of public money that the district could have made. Now the cows of that community will be tested out and the school will commence to mean more to the farmers. When the school commences to do things that have a vital connection with things on the farm then rural education begins in that school district. Miss Murray will test out seeds for the community. This is another thing that will help the farmers.

Principal R. J. Paulson of Woodruff purchased a Babcock tester with his own funds. This is true enterprise on the part of a teacher. Mr. Paulson also takes up the matter of seed work with his pupils. He purchased magnifying glasses for this work. Paulson seems to mean progress.

Henry Blumenstein of Woodruff has a nice lot of Rural New Yorkers for seed purposes. People desiring seed should see Mr. Blumenstein. These potatoes should not get a way from Woodruff. If Woodruff will go into the growing of one good strain of Rural New Yorkers for their commercial stock, the potato industry at Woodruff will become more profitable as it will be easy to sell car lots of one kind of potatoes and the Woodruff stock will be come known and will be in demand. The Rural will do well on the Woodruff soil too.

Word comes from the College of Agriculture that the silo forms for building solid concrete silos will be in Rhineland in a few days. This set of forms will be for the exclusive use of farmers in Oneida county this summer. The set ought to be in use from the time of arrival until corn harvesting is done. A silo ought to be built every two weeks. Farmers wanting the use of these forms should get into line. First come first served.

Farmers all about Oneida county are thinking of alfalfa. Chas. Sanders and L. J. Pixley of Tomahawk Lake are going to grow the crop. H. H. Stolle just over the line in Lincoln county at Tripoli has the matter under consideration and will probably do this work in connection with the Agronomy Department of the College of Agriculture. This summer every farmer in Oneida county would do well to try out alfalfa if he only got a plot a rod square started right. Manure the ground, plow, disc if possible, drag in lime, keep weeds down, sow in June, keep weeds down, sow seed about the middle of June. The agricultural representative can furnish soil for inoculating.

BUYS OWL RESTAURANT

On Tuesday Phillip Moreault sold the Owl Restaurant to William Haase who immediately assumed charge of the business. Mr. Haase comes to this city from Oshkosh and is a first class restaurant man. He was until recently employed by Henry Price at the Brunswick cafe.

Mr. Moreault owns a tract of land near Roosevelt and will probably engage in farming.

BIG BOWLING TOURNAMENT

Thos. Lawrence, manager of the bowling alleys on Stevens street, has distributed attractive cards about the city advertising the tournament to be held at his alleys during the week beginning April 23. Mr. Lawrence intends to make this tourney one of the biggest things of the kind ever held in northern Wisconsin and that he will be successful in his efforts there is no doubt. The cash prizes will total about one hundred dollars and this will serve as an incentive for a large list of entries.

MUST BE STANDARD SIZE

The state law prescribing that all berry and fruit boxes, crates and barrels shall be of standard sizes, containing full measures in pints, quarts, etc., is now in force. The law was enacted two years ago and its rigid enforcement delayed till March 1, 1912, in order to enable fruit growers to prepare for it by working off non-standard packages which might have come into their possession before the enactment of the statute. Consumers will take note that the sale of fruits and berries in non-standard boxes, marked in a stencil or otherwise to indicate the amount they respectively contain, is to lower level, and that local business and the state inspectors of weights and measures are diligent of obtaining information regarding infractions of the law, that prosecutions may follow which will serve as warnings.

POOR SERVICE FELT HERE

Both in passenger and mail service the people of Rhinelander feel the results of the almost constant failure of the St. Paul road trains to connect with Soo line trains at Pembine. Passengers for Rhinelander from Chicago and Milwaukee who travel on the St. Paul and Soo roads via Pembine are frequently inconvenienced by the poor connections and the mail service is also crippled.

Residents of Marquette, Menominee, Dunbar and Goodman have signed petitions protesting to the state railroad commission against this poor service and it is believed that favorable action will be obtained.

LITTLE TOUCH OF WINTER

Just when the people of this city were beginning to believe that spring had arrived the weather man turned back the lever and sent down another touch of winter Wednesday night. This morning the ground was white with the beautiful and the people found comfort in hugging their fire places. In the northern part of the state the snow fall was heavy and the temperature took a sudden decline.

TO STOP AUTO SPEEDING

Assemblyman Allen D. Richardson of Iowa county, has introduced a bill providing that no automobile or motorcycle shall be sold in the state whose maximum speed is greater than 25 miles an hour. The bill is not applicable to the automobiles that have already been sold in the state with a higher speed. Neither are its provisions applicable to an auto owned and operated by any physician, surgeon or police officer of the state. The object of the bill is to prevent speeding.
